GRAND HOTEL DU LAC DE JOUX

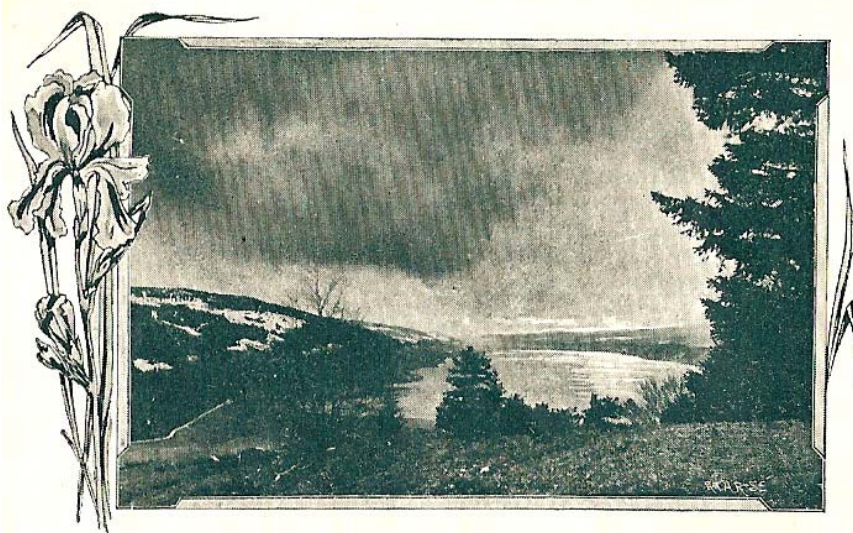

AT THE HAMEAU DU PONT VALLEY
DE JOUX
JURA, CANTON DE VAUD, SWITZERLAND

The Valley of the Lake of Joux.

Among the many mountain resorts which form the principal charm of Switzerland and attract large numbers of visitors from all parts of the world, the **VALLEY OF THE LAKE OF JOUX**, with its picturesque little lakes and its forests of pine and fir, is assuredly one of the most highly favoured, in every respect, and we may add, one of the most salubrious and health-giving.

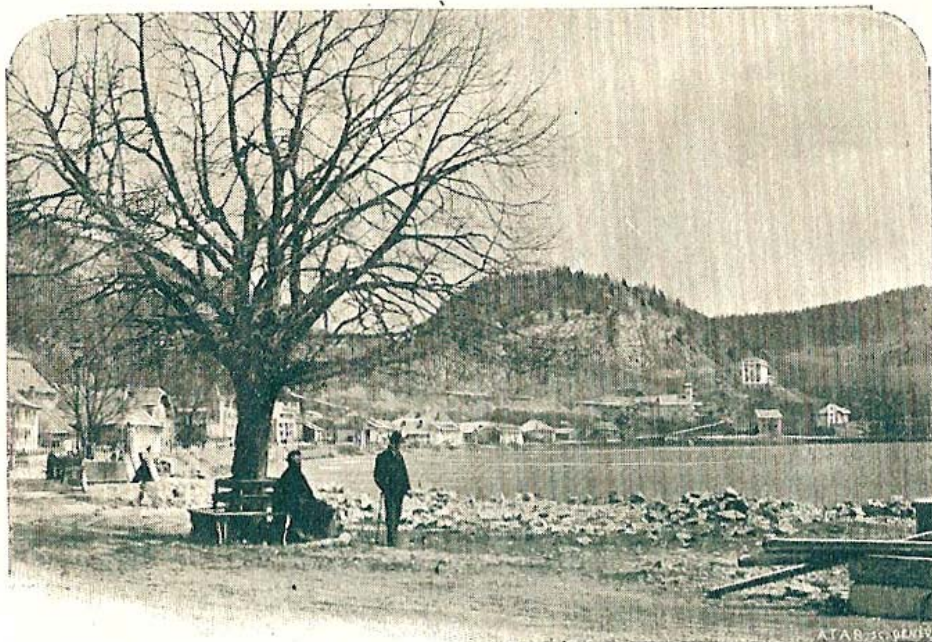

The Valley of the Lake of Joux, situated in the woody and mountainous part of the Jura, in the Canton de Vaud, 3307 feet above sea level, is made up of several smaller valleys parallel to each other, and is about 12 miles long, by from 2 to 5 wide.

From Vallorbe (station on the main line from Paris to Lausanne, via Pontarlier) a mountain railway of the usual gauge conveys travellers, in 40 minutes at most, to **LE PONT**, a picturesque hamlet forming a graceful fringe to the Lake of Joux, and not far from Lake Brenet, which is separated from the former by a narrow strip of land.

This part of the valley is sheltered from the north winds by the lower slopes of the Dent de Vaulion, it is surrounded by forests and verdant scenery, and is the prettiest and most health-giving spot in this beautiful and picturesque country. The **GRAND HOTEL DU LAC DE JOUX** is situated here, at a few minutes' walk from Le Pont, in a sheltered situation and with a fine view of the lakes and forests.
